## Skate Canada's STARSkate Program

STARSkate offers opportunities for skaters to develop figure skating skills in four different areas: ice dance, skating skills, freeskate, and interpretive skating. Skaters have the opportunity to take Skate Canada Tests through a nationally standardized testing system. Skaters may choose to remain in the STARSkate Program or may choose to transition to the CompetitiveSkate Program (dependent on age and skill level).

**ELLA LECLAIRE**

**AUTUMN CAPSTICK**

*Ella and Autumn are currently participating in the STARSkate path of Skate Canada's competition and testing system. In the past season, they have been practicing and taking tests in three different disciplines: freeskate, test dance, and skating skills. Keep up the great work!*
