

COVID-19 INFORMATION

COVID-19 ALBERTA HEALTH DAILY CHECKLIST (FOR ADULTS 18 YEARS AND OLDER)

Overview

This tool was developed to support Albertans in protecting others and reducing the risk of transmission of COVID-19. Adults 18 years and older can complete this checklist every day to self-monitor for symptoms of COVID-19.

If you have traveled outside Canada in the last 14 days, follow the [Government of Canada Travel, Testing, Quarantine and Borders](#) instructions, including any requirements for exempt travelers related to attending high-risk environments. International travellers who become a case after arrival in Alberta should follow isolation requirements outlined by Government of Canada.

If you have received a message from Public Health indicating that you are a case¹ of COVID-19 or if you have tested positive on [a rapid test](#), you are required to isolate as per current [Public Health instructions](#). For more information on isolation requirements after a positive rapid test, refer to the [Rapid Testing at Home website](#).

Screening Questions for Adults 18 Years and Older:

1.	Have you been a household contact of a case¹ of COVID-19 in the last 14 days? <i>A household contact: a person who lives in the same residence as the case OR who has been in frequent, long-duration, close-range interaction with a case of COVID-19. For example, someone who is a caregiver or an intimate or sexual partner of a COVID-19 case.</i>	YES	NO
<p>If you answered “YES” AND you are NOT fully immunized²:</p> <ul style="list-style-type: none">You should stay home for 14 days from the last day of exposure and monitor for symptoms. <p>If you answered “YES” AND you are fully immunized² proceed to question 2:</p> <p>If you answered “NO” to question 1, proceed to question 2</p>			

¹ A lab-confirmed case OR a probable case as defined in the [Alberta COVID-19 Notifiable Disease Guideline](#)

² A person who has received the complete vaccine series for COVID-19 and it has been 14 days after the second dose in a two dose series or one dose in a one dose series (i.e., Janssen vaccine)
